

LASH LIFTING

AFTERCARE ADVISE

- Avoid getting your lashes wet for upto 24hrs after your treatment.
- Avoid steam/sauna for 24hrs.
- Avoid makeup (mascara) for 24hrs
- Avoid wearing waterproof mascara.
- Please do not rub your eyes. Please be gentle with your lashes.
- Avoid any other beauty treatments over this area for 24hrs.
- Avoid the use of oily products/oily cleaners at anytime as this can cause the lift to drop.

PLEASE NOTE:

Some people may feel slight sensitivity or redness straight after this treatment. Please do not be alarmed as this is nothing to worry about.

If you feel sensitivity then use a cold compress of damp cotton wool on the eye area to sooth. If symptoms persist after 24hrs then please seek medical advice.

Here at Salon No10 your safety is our priority and a patch test is always carried out prior to your treatment.

If you have any concerns or need advice then please contact the salon.
