

AFTERCARE ADVISE

- Do not have any other beauty treatments on your skin for 2 weeks after your hylauron pen treatment.
- Keep upright for upto 5hours after.
- For upto 24hrs after your treatment gently massage the area ensuring your hands are clean & sterile.
- After the 24hrs have passed avoid rubbing or massaging your skin.
- Avoid perspiring (no energetic workouts, gym sessions, running etc) for upto 48hrs.
- Avoid excessive bending.
- Refrain from picking/scratching the treated area.
- If you have had the Hylauron pen lip treatment vaseline may be used to prevent dryness/skin cracking.

HYLAURON PEN AFTERCARE

PLEASE NOTE:

Contra actions:

Sometimes after a treatment some people experience something called a contra-action and nothing to be alarmed or worried about.

If in any doubt please don't hesitate to contact us here at Salon No10.

You may experience some of the following : Itchyness, redness, slight bruising, dryness, tenderness and small pea like lumps around the area treated.

Any response to the treatment should dissappear within a few days.

I'm any unlikely event any you feel you are having an allergic reaction or are in severe pain then please seek medical advice.
